Seaford iPads – for students starting in Years 3-11 in September 2026

Dear Parents, Carers and Guardians,

I am delighted to be able to write to you with further information regarding Seaford's iPad package that your son/daughter will be utilising from September.

Every student from Year 3 at Seaford is required to have a Seaford-managed iPad, as outlined in the new student pack.

The iPad has become an educational tool that teachers can turn to in the classroom when it is appropriate to do so, as well as providing a manageable and secure platform for teaching and learning. It is now part of the learning toolkit that all our students possess and utilise both inside and outside of the classroom. Our teaching staff receive ongoing training on best practice in how to use and be innovative with iPads in the classroom. In addition to this, Seaford provides all students with full access to the Microsoft suite for education – an invaluable tool as we continue to develop our use of Microsoft Teams and OneNote – as well as other licensed software, such as the Adobe suite and specialist recording software used in subjects such as Music, Media and PE. Our tutors and form teachers also use the iPad in the delivery of our PSHE and RSE curriculum, and to help students engage with their own reflection and improvement through our Personal Development Programme.

We continue to focus on handwriting, literacy and oracy across the school, all of which can be supported by iPads and other technology. One of the biggest dividends from our iPad scheme is increasing the accessibility of learning to all students. Apple iPads have a plethora of built-in accessibility tools and, coupled with those supplied through Microsoft and other apps, our students are equipped to approach their learning through a lens that fits their needs.

The iPad does not replace all traditional resources; we expect it to be used alongside them to enhance and supplement learning as appropriate. We would expect the iPad to facilitate activities that could not be attempted without a mobile device (e.g. analysis of stance in cricket, instant filming and analysis for drama activities, filming and analysis of dissections, access to animations and learning games and quizzes, and accessing Microsoft Teams, OneNote, OneDrive and Firefly).

The device will be managed by the school. This allows teachers to monitor the use of it during lessons, as well as providing speedy and relevant feedback to students, as they are able to view the work the student is carrying out instantly. Teachers are also able to directly control access to certain websites, apps and tools for each lesson they teach. This helps to avoid distractions and ensure that students stay focused on their learning. Teachers can display students' work instantaneously to the class – as appropriate – utilising the Apple TVs we have installed in every classroom, allowing students to share and collaborate to produce excellent work. All of this also enables teachers to provide instant voice-recorded or written feedback.

Seaford's iPad Store

All iPads and associated equipment must be purchased through our dedicated Seaford Apple Store, operated by our trusted partners, Easy4U. You can access the store here:

<https://www.Seaford.org/AppleStore>

For support, please contact Easy4U:

- **Phone:** 0330 8080119
- **Email:** info@easy4u.school

You may choose to purchase the iPad outright or opt for monthly or yearly rental plans. Insurance packages are available for two, three or four years. If purchased, the device will belong to you but will be managed by Seaford during the students' time at the school. Once a student leaves the school, the device will be released from the Seaford management system, so it can be used as a normal iPad at home or for future educational use (although it may not be possible to re-enrol the device in another education provider's management system due to some Apple's restrictions).

The keyboard case is a necessary element of the bundle, as all students will develop touch-typing skills in the curriculum.

The Seaford iPad bundle includes the following:

- 11th Gen Apple iPad 11" 128 GB Wi-Fi
- Logitech Rugged Combo Touch iPad keyboard case
- PanzerGlass screen protector
- Logitech crayon
- Damage and theft insurance (£20 excess)
- iPad battery warranty (no excess)
- Delivery to Seaford
- Installation of our management software and all the Seaford-approved and regulated education apps

To ensure timely delivery and setup, please complete your purchase by **28th June**.

For technical queries, contact: iPadEnquiries@seaford.org

iPad Care

We expect the cases and screen protectors to provide excellent protection for the iPads while in school, at home and while travelling between the two. However, in addition to this, we do expect students to take care of the iPads when in school and at home in line with the Seaford Student iPad User Agreement. We ask that all parents and students read this and sign to say they agree. You can view the document here: <https://seaford.fireflycloud.net/pre-admission-forms/new-students-ipad-agreement> and, once complete, please fill in the form found on the same page, on your son/daughter's behalf, to confirm it has been read.

All students are provided with lockers or a secure storage space (if a boarder) in which to keep their belongings, including their iPads. We ask that iPads are not left in 'bag drop for sports equipment' areas around the school site and are returned to their lockers during break or Games and at other times of the day when they are not being used. The iPad should be kept in its case at all times, which should be closed when not in use. Students should always ensure that their iPads are charged and ready to be used at the start of each day.

I am sure you will share my excitement as we continue to strive for a learning environment that is innovative and readies all students for a collaborative and global workplace. Students will receive an iPad induction in September and will ongoing support through their tutors and class teachers at a level appropriate for their age and the subjects studied.

Yours sincerely,

Mr Chris Hawley
Director of Innovation

Accessible and affordable digital education for everyone

Ordering is quick and easy

- Go to easy4u.school/order and enter your login code:

G46DFSW

 Or click [HERE](#) to go directly to the webshop
- Choose your device and select the term of your Easy4u Service
- Opt to rent or purchase
- Fill in all details and choose your payment option
- You will receive an order confirmation by email

Conditions for rent:

- ✓ Customer pays a deposit in advance equal to four rental periods (this does not apply in case of purchase)
- ✓ Option to buy at the end of the term against retention of the deposit amount
- ✓ Payment by recurring payment (per month or per year)
- ✓ No credit rating assessment or registration needed

Your School devices Including the Easy4u All-in-1 Service

Please visit the webshop for more information
